

GPI Economy Fuel Meter

01A Series

- ***Small & sturdy Electronic Digital Fuel Meter with rugged aluminum housing.***
- ***Powered by two AAA batteries***
- ***Works well on any pumped or gravity feed system. Flows from 10–100 LPM.***

Model No		01A12LM
Design		Turbine
Housing		Aluminum
Fitting Size		1 inch BSP
Flow Range	LPM	10 – 100 LPM
Accuracy		+/-5% of reading
Repeatability		+/- .5%
Operating Temperature Range	Celsius	-10 to 54°C
Pressure Rating	PSIG	150 PSIG or 10.3 bar
Wetted Components	Housing	Aluminum
	Journal Bearings	Ceramic
	Shaft	Tungsten Carbide
	Rotor	Nylon 6-6
	Rings	316 SS
Strainer Size		28 mesh
Maximum Flow	LPM	100 LPM
Maximum Pressure Drop in 10:1 Range	PSIG	1.72 PSIG
	bar	.12 bar @ 100 LPM
Shipping Weight	kg	0.9 kg
Approvals		Not approved for use with Aviation Fuel
Power Source		2 ea. AAA batteries
Electronic Features	Feature 1	2 Totals (1 cumulative, 1 Batch)
	Feature 2	Permanent factory calibration for measuring gasoline, diesel or kerosene
	Feature 3	User cannot configure electronics
