BES Hose End Water Flow Meter

Easy Operation, Quick Connect and Save Water. Mini size with Digital Display

Specifications:

Water Flow Rate: 1 – 40 lt/min

Working Pressure: 0.5 – 8 Bar (7.25 - 116 psi)

Accuracy: $\pm 5\%$

Connections: $\frac{3}{4}$ " BSPF Thread and $\frac{1}{2}$ " hose Connectors

Max Flow Rate: 2400 lt/hr

Max Water Consumption: 9999.9 lts

Power: By 1 CR2032 Button Cell Battery

Display indicates; Total Lt, Lt/min, Lt/Day with optional Gallons with reset facility

Size: 145mm overall length, Display 53mm Wide x 40mm Deep

Waterproof to IPX6. Can resist high-pressure, heavy sprays of water.

Functions:

Real time water flow rate monitoring.

Last water usage amount monitoring

Daily average water consumption monitoring

Total water usage amount monitoring

Low battery indication

Built in Hall sensor for reliable measurement

Litre and Gallon unit switchable
